BUSINESS ENTERPRISE CENTER

The Business Enterprise Center located at Wright State University-Lake Campus, provides full-service business assistance programs to new, developing and expanding companies within our region.

In delivering such assistance, WSU-LC places great emphasis upon cooperation with all public and private entities to achieve our common purpose. This allows better quality and wider scope of services while keeping overhead low. Business assistance is provided by training, direct consultation and customized/non-credit training.

Such assistance may be provided at WSU-Lake Campus, on-site at the business or at a suitable third-party location.

All Business Enterprise Center consultants have appropriate academic credentials and a minimum of 10 years actual experience in the field.

Confidentiality Policy

The WSU-Lake Campus Business Enterprise Center holds all client contact information in the strictest confidence. No client information is released without our clients' permission.

Starting Right

This class was developed to assist entrepreneurs in the region. We highly recommend new business owners take the class which allows entrepreneurs to also receive long-term free individual business counseling. The Starting Right class is held once a month at the Lake Campus and once a month at the Van Wert BEC office.

Call Carol for more info: 419-586-0902
