

## How to Order Official College Transcripts

- Colleges or universities will require official transcripts of your CCP or any prior college coursework in order to add applicable credit to the program of your choice.
- If your CCP courses were with Wright State University, you do not need to request transcripts from us.
- If you took CCP, or college, courses anywhere other than Wright State University, then you must request those transcripts to be sent to Wright State University as soon as you are able so the credit may be evaluated.
- The following is a list of local colleges and universities with the link to order transcripts. **If your school is not on this list, please contact the college or university you attended to order transcripts.**
- Please be aware that the college or university may charge a fee for official transcripts.

1. **Bowling Green State University**
