

Lake Campus Student Centered Mini Grant

Prepared for

Wright State University Lake Campus

7600 Lake Campus Drive

Celina, Ohio 45822

Submitted by

Sample Student Name

Undergraduate Biology Student

Wright State University Lake Campus

Period of Performance: January 24, 2015 – January 26, 2015

Date Submitted: December 1, 2015

Amount Requested: \$500

Project Narrative:

Funding is requested to attend the Midwest Fish and Wildlife Conference at the Amway Grand Hotel in Grand Rapids, Michigan along with Dr. Stephen Jacquemin. The conference is held Sunday January 24th through Wednesday January 27th. The plan is to arrive on the afternoon of Sunday January 24th and stay until the evening of Tuesday January 26th. At the conference a poster will be presented which will outline our research project that has taken place during the Fall Semester of 2015. Our current work has further developed the swimming performance chamber located in Dr. Jacquemin's lab. We have also performed a literature review of swimming performance data and created a single data base to determine what swimming performance experiments have been done.

By attending this conference we will be able to present ideas of a cost efficient swimming performance chamber as well as signifying the need for additional swimming performance data pertaining to the many groups of fish which are underrepresented in the current literature. This conference will enhance my education by gaining critical presentation experience and give me an opportunity to represent Wright State University Lake Campus.

Budget:

Conference Student Registration	\$180
Per Diem Meals	\$40
Hotel	\$280
Total	\$500
