Let’s TALK

Camp TALK by the Lake is an extraordinary opportunity for children between the ages of 6 and 14 who struggle with speech, language and/or social communication challenges.

Camp TALK offers a true “summer camp” experience as well as intensive speech and language therapy. Speech and language therapy will be offered throughout the day in unique group and individual settings. All therapy will be provided by licensed Speech-Language Pathologists and based on current theory and research, as well as years of experience. Whether the camper’s goals target articulation or social language, their therapy will be designed to meet their individual communication needs. Students will also be receiving educational instruction from aspiring Intervention Specialists and Teachers.

Can you TALK the TALK?

Camp TALK is designed for children ages 6-14 who have a current Speech and Language Individual Education Plan (IEP.) Our campers will have a varied range of abilities within the mild to moderate classification. Children should have a basic grasp of daily living needs (i.e. toilet trained, self-feeding skills, etc.) This camp will be beneficial for children with disorders including, but not limited to:

- Autism
- Asperger’s Syndrome
- Apraxia of Speech
- Attention Deficit Disorder (ADD)
- Attention Deficit Hyperactive Disorder (ADHD)
- Developmental Delays
- Down Syndrome
- Hearing Impairment
- Language delay or disorder
- Phonology Processing Disorders or Articulation Deficits

(*Campers are not limited to the listed diagnoses. Campers must have a current IEP, with speech and language services.)

Camp TALK will be offered at a price of $225. This price includes the week-long camp full of adventures and memories, snacks, all activities and therapy.

**If you register your child by May 15, you will receive $25 off the total price!
