

SkillsTrac

Certifying the Advanced Manufacturing Workforce

Wright State University-Lake Campus SkillsTrac Program

The Lake Campus program is made up of a blend of online classes and hands-on labs with multiple skill modules that grow and build on skills learned either in the previous training level, or by actual work experience! Each module includes two or more separate certification sections. Each module can be contracted separately.

The **Green Fundamental Skills** include Maintenance Basics, Mechanical Systems, Print Reading + Measurements.

The **Yellow Industrial Skills** includes Motor + Motor Controls, Basic Electricity, Pneumatics + Hydraulics.

The **White Welding and Machining Skills** includes Basic Welding + Basic Machining.

The **Red Industrial Control Skills** includes Programmable Logic Controls + Industrial Control Systems.

The **Blue Industrial Automation Skills** include Automation Systems + Introduction to Robotics.
